“FACE atelier is the next big thing in foundation.”

### A great foundation.

FACE Atelier's Pro Ultra is a silicone-based foundation that can be adjusted to the perfect shade by adding a drop of Zero Plus to darken or Zero Minus to lighten. Oil-free yet hydrating, this long-lasting foundation is smooth, incredibly lightweight and blends easily. It won't crease or flake. The Pro version comes in small, unbreakable containers. Available in 10 shades. Ultra Powder is the perfect finish for the foundation. It comes in three shades, including translucent.
