FACE Atelier

Debbie Bondar is an accomplished woman. Holding a law degree from Osgoode, and two bachelor's degrees (one in journalism and one in English literature), this Calgary native is using her education and business experience to create FACE atelier: a make-up line for smart women of all ages. It doesn't test on animals, and has an encouraging attitude about individual beauty. Its philosophy and product are big hits with celebrities such as Hilary Swank and Scarlett Johansson. And now it's heading to the Oscars. This March FACE atelier will be one of the select companies to be showcased at the Night of 100 Stars Oscar Gala. www.faceatelier.com. *EK*
