Brush Basics

Bacteria can build up on your makeup brushes, so it's a good idea to give them a good wash every two weeks. Any gentle shampoo will do the trick, or you can invest in a special solution created especially for this purpose. (Try **Face Atelier Brush Buff**, \$12.) After rinsing, lay brushes flat on a clean towel and let air-dry overnight.

100% PURE CANADA

Silky lingerie. Fluffy soufflés. And red-hot diamonds.
